

Welcome to ineuron.ai

GCP Projects

Description:

GCP is one of the most used and fastest-growing cloud platforms in the cloud industry currently. This course will get hands-on experience in building and implementing various real-time ML, DL & NLP-based projects with GCP cloud services.

Start Date:

Doubt Clear Time:

Course Time:

Features:

- # Real-time project implementation
- # Quizzes
- # Assignment problems
- # Downloadable resources

Completion certificate

What we learn:

GCP IAM and Security

GCP Storage & Database Services

GCP Management Tools

GCP AI Stack

Real-time Project implementation on ML, DL & NLP

Requirements:

Prior Understanding of GCP

GCP Account

Prior understanding of ML, DL and NLP

A System with a decent internet connection

Your dedication

Instructor:

Name:

Khushali Shah

Description:

A data scientist having rich experience working with MNCs and start-ups in the field of data science and machine learning. She has expertise in Chatbot development for various domains & been developing professionally for 6+ years with diverse job history. She also had positions in software module development, web app development, functional designs, requirement gathering, client interaction, and server

setup/admin & can help everywhere in the stack; she loves wearing multiple hats to an extent. She also believes in enhancing her skills by training and learning new things day by day.
